

Classic Casino

Our fun casino has continually proved successful with guests of any age in any social or corporate function. It is totally flexible and can be run at any point in the evening to suit itinerary of the individual programme.

Frequently the casino is set up in a separate room, dependant on the limitations of the venue. We pride ourselves on the quality of our genuine full size casino tables, which complimented by the skills and character of our professional croupiers, guarantee an enjoyable evening. Our croupiers are always happy to explain the rules and procedures of the various games.

Roulette:

Guests are invited to try their luck at this classic game, picking numbers on the wheel and gambling with genuine chips. The croupier spins the wheel, and dependant on the placing of the bet the "punter" can multiply their stake by odds up to 35:1

Blackjack:

Similar to pontoon, guests are invited to challenge "the banker". Each guest is dealt two cards with the aim of accumulating a total of 21 points. They can then request "card" to gain more cards or "stand" to complete their selection. If in choosing to acquire more cards the player exceeds 21 then they are "bust". At the end of the round any player whose cards exceed the total of the bankers, but who has not "bust" wins more chips dependant on the odds involved.

Doker:

Guests challenge the dealer in a game of five card Caribbean Stud Poker. Players must enter an ante to play the hand and they may then stake up to twice the original ante or throw the cards in. The aim is simply to beat the dealers hand who only plays when he has an ace / king combination or above. The aim is to create pairs, three of a kind, runs, flushes and full houses. With the payout odds increase with the difficulty of the combination of cards.

Craps:

This is the American dice game where players take it in turns to throw the dice. The aim is to throw 'the score' before throwing 'craps'. Other players bet throughout the throws on individual totals or combination of dice.

Fees include all tables & equipment, fully trained professional croupiers, casino fun money, delivery & collection of equipment.

How the casino works:

Our casino evenings are infinitely flexible and can be run at any time during your event. Game play is usually for up to 3 hours.

A typical evening would run as follows:

Prior to your guests arriving our casino would be set up in a separate room (if possible) close to where they would be dining. If a separate room is not available it could be set up in the dining room itself prior to your guests arrival.

During coffee our Event Manager / your MD will welcome your guests to the casino and give a short introduction on the games and our croupiers will distribute the fun money, (or place on tables prior to guests arrival) which usually takes the form of a 100 dollar note.

Guests will then be encouraged to take their newly acquired fun money to the tables and exchange them, with the croupiers, for gaming chips.

Our professionally trained croupiers will explain all the rules and procedures of the games to your guests. Croupiers typically wear all black or evening cocktail dresses for the ladies.

All the fun of a casino and friendly competition is bound to ensue!

Approximately 15 minutes before the end of the evening (usually lasting up to 3 hours) our Event Manager announces, "last three spins" the betting normally becomes frantic as the players try to amass as many chips as they can. The casino then closes and our staff counts up to find the winner.

Either our Event Manager (or someone from your organisation) will then award the prize to the lucky winner.

Table sizes:

Roulette: 10 x 6ft

Blackjack & Poker: 6 x 3ft (semi-circle)

Craps: 8 x 4ft

Please allow sufficient space around the tables for guests to play.

Additional Options:

Have your company logo, picture of guest or message printed on the play money:
